PROJECT DESCRIPTION

FELAE's School Supply Drive Matching Program supports organizations looking to start or improve a school supply drive. This section is where you specify particulars of what you would like your school drive to look like. FELAE is giving particular preference to organizations seeking to meet mid-year supply needs. Note: You may be contacted for further information should your application be chosen for consideration.

Project Name _____

City / County _____

State _____

Do you have an existing School Supply Drive?

- If so, what is your program's annual spend? How many children and schools do you serve in a typical year? How have you measured this? Do you have an existing online giving webpage? Is it specific to your school supply drive, or a general donation website for your organization? How have you fulfilled your supply orders in the past?
- If not, how many students and/or classrooms are you looking to serve? What experience does your organization have that would lend to hosting a successful school supply drive? Do you currently work with any fulfillment partners for other projects within your organization?

Describe the need for school supplies for students and classrooms in your community, and how this project will address that need. How have you identified this need? Will your project be limited to a particular location and/or demographic? Are there specific supply needs for this group? What is the expected timeline for this project?

How much do you expect to raise for this particular project? How much in matching funds are you requesting?
