## SCHOOL SUPPLY DRIVE MATCHING PROGRAM

FELAE is concerned that students are not coming to class with the school supplies they need to maximize their learning opportunities, and is looking to partner with community organizations to improve efforts to enable students and classrooms to get the supplies they need.

FELAE's School Supply Drive Matching Program is designed to simplify the process of starting and running a school supply drive. Through this program FELAE assists organizations in setting up an online school supply drive, identifying supplies and fulfillment options, and by matching donations raised to increase the number of students and classrooms impacted.

### **Streamlined Online Donations Page**

FELAE will work with your organization to design a webpage unique to your organization's campaign, which can be linked directly from your organization's website. Through this landing site, visitors can make donations and purchase school supply vouchers, where you and your partners can redeem vouchers and order supplies. FELAE works with unique fulfillment partners to streamline the donation, order, and delivery process, so that once you redeem a voucher a supply pack is automatically sent out to those in need. This means less administrative burden on your organization, and more money going toward supplies. The webpage then becomes a lasting legacy that can be utilized for future school supply drives and fundraising campaigns.

### **Identify Supplies & Fulfillment Options**

FELAE works with your organization to identify the contents of school supply packs for various age groups. These supplies are then delivered in individualized packs that can then be passed directly to a student or to a classroom teacher without any additional administrative work for your organization. FELAE explores local fulfillment options on your behalf to ensure good quality and value for money.

### **Matching School Supply Donations**

FELAE wants to maximize the impact your organization is able to make, and will match online donations by issuing school supply vouchers in \$250 increments that can be redeemed for additional school supplies. These school supply vouchers can be utilized by your organization, or can be passed on to a school for them to redeem directly. Organizations can apply for up to \$10,000 in matching vouchers.

To Apply and for more information, visit our website at [www.FELAE.org/programs](http://www.FELAE.org/programs).
